

New Release

Effective 2/21/2020, we have discontinued sales option D124200003 and have activated D124202000 introducing the new Defender Electric Crossing Arm for the Saf-T-Liner C2. Listed below are benefits of this front bumper mounted safety device.

Requested change orders will be subject to material lead times.

Features and Benefits

- New defender motor is now commonly shared between this crossing arm and the Defender Stop Arm
- Defender Motor performance improvements include:
  - Longer life
  - Obstruction detection
  - Self Homing
- Adjustment at the attachment point of the poly rod
- No magnet needed for stowed position
