

New Release

The NS Perimeter View 360° (PV360) feature that was released on the C2 Saf-T-Liner on 9/16/19 will now be available on your HDX and EFX units. As a refresher, this new hardware will now provide the ability to share quad screen, crisp resolution video to existing or add-on DVR equipment. Redesigned views can be activated by an enhanced selection of chassis triggers allowing users to meet the specific target requirements for their state or district.

Features and Benefits

**Standard Triggers include:**

- Reverse Signal
- Red Warning Lights
- Left Turn Signal
- Right Turn Signals

Ordering

The PV360 system can be ordered by configuring your order with B200300000. This option will provide all of the PV360 hardware/software as well as a Rosco 6”x 30” mirror with an integrated 10” monitor. Change orders will be evaluated and approved based on material lead times.
