

New Release

Hankook has discontinued production of the DH01 drive tire for calendar year 2021. Orders in our backlog with 2021 build dates that are configured with the DH01 drive tire or spare tire options will be updated to new tire options for the Hankook DH37 drive tire and spare tire. Updated pricing for these new options will be applied to new orders.

The DH37 provides improved rolling resistance meeting the verified range to be Smart Way approved by the EPA.

Features and Benefits

- EPA Smart Way verified with improved rolling resistance
- Traction and wear improvements in all road conditions
- Large footprint and aggressive tread design which allows for outstanding performance in the rain, mud, and snow
