

## GPOP - Issue Review System

**Part Number:** 68497915A\$

**Part Description:** BUMPER, Tailgate (U-frame)

**Issue Description:** When swing doors are opened on multi-function tailgate the overslam bumper sticks to the door and pulls out of the U-frame.

If bumper is still stuck to the swing door remove and resecure using Mopar Bond-All Gel PN 04467709AA. It is recommended to apply adhesive to the mounting face of all 4 bumpers and replace any missing bumpers as required.

Use adhesive sparingly to avoid squeeze out and follow manufacturers recommendations for surface preparation and cure time.
