Electronic Parking Brake Not Available Warning Message During PDI

21MY RR Evoque
21MY Discovery Sport

Customer Voice:

- During Pre-Delivery Inspection (PDI) a limited number of 21MY Range Rover Evoque and Discovery Sport vehicles may display 'Electronic Parking Brake Not Available' warning on the message center screen.

Technical Description:

- This made be caused by the vehicle being released from the manufacturing process with the application disabled.

Status:

- SSM75204 has been published to address this concern.
- Should this warning message be displayed during PDI, please refer to this SSM for the procedure to complete the 'Electronic Park Brake Enable Customer Features' application.
