<b>Technical Service Bulletin</b>		DATE	MODEL(S)
		JANUARY, 2021	ELANTRA (CN7, CN7a) SONATA (DN8) SONATA HYBRID (DN8 HEV) PALISADE (LX2) VENUE (QX)
SUBJECT: WIRELESS CARPLAY SOFTWARE UPDATE (SERVICE CAMPAIGN T5T)			
	*****DEALER ST	OCK ONLY*****	r te guatamor rotail delivery

When a vehicle arrives at the Service Department, access Hyundai Motor America's "Warranty Vehicle Information" screen via WEBDCS to identify open Campaigns.

**Description:** When using Wireless CarPlay, the system may intermittently auto disconnect. When Wireless CarPlay is disconnected, a pop up message "Phone Not Responding. Please reconnect it and try again" will appear on the radio screen.

This bulletin describes the procedure to update the radio software to help reduce the disconnection occurrences.

Note: The disconnection phenomenon is caused by the Apple IOS software. Apple IOS software intermittently pause the data transmission, causing the communication interruption between the radio and CarPlay. This software update helps reduce the disconnection occurrences, until Apple provides a software update to correct the condition.

**Applicable Vehicles:** Certain 2021 MY Elantra (CN7/CN7a), Sonata (DN8), Sonata Hybrid (DN8 HEV), Palisade (LX2), and Venue (QX) equipped with display audio.

### WIRELESS CARPLAY SOFTWARE UPDATE (SERVICE CAMPAIGN T5T)

#### Parts Information:

CN7 (KMHLL4A...) – Vehicles built in Korea.

**NOTE 2:** Submit Claim on Campaign Claim Entry Screen.

**NOTE 3:** If a part is found in need of replacement while performing the repair for this Service Campaign T5T, and the affected part is still under warranty, please submit a separate claim using the same Repair Order. If the affected part is out of warranty, submit a prior approval request for goodwill consideration prior to performing the work.

### WIRELESS CARPLAY SOFTWARE UPDATE (SERVICE CAMPAIGN T5T)

#### Service Procedure:

SOFTWARE TABLE				
	Software Version			
Model	Before Update (Old Version)	After Update (New Version)		
Palisade (LX2)	LX2.USA.D2V.001.001.200507 LX2.USA.D2V.001.002.200611 LX2.USA.D2V.002.100.200724	LX2.USA.D2V.002.100.201016		
Venue (QX)	QX.USA.D2V.002.100.200624 QX.USA.D2V.002.100.200805 QX.USA.D2V.002.100.200907	QX.USA.D2V.002.100.201113		
Sonata (DN8)	DN8.USA.D2V.002.001.200514 DN8.USA.D2V.002.101.200805	DN8.USA.D2V.002.101.201119		
Sonata Hybrid (DN8 HEV)	DN8_HEV.USA.D2V.002.001.200514 DN8_HEV.USA.D2V.002.100.200723	DN8_HEV.USA.D2V.002.100.201119		
Elantra (CN7/CN7a)	CN7.USA.D2V.001.001.200803	CN7.USA.D2V.001.002.201019		

- 1. Turn the engine ON.
- 2. Wait until the radio is finished loading.

Press and hold the SETUP button.

Some models may require an extra step. Press and hold the SETUP button, and then press "SW Info/Update" on the screen.

3. Refer to the software table from above. Verify the Software Version shown on the screen matches the older software version.

If the radio software version does not match with the older software version in the table, then do not perform the software update. Submit campaign claim for applicable model to close out the campaign.

### SUBJECT:

### WIRELESS CARPLAY SOFTWARE UPDATE (SERVICE CAMPAIGN T5T)

4. Check the model on the USB stick label to confirm that it matches with the vehicle that is being updated.

Insert the Software Update USB into the USB port.

5. Press the 'Update' button at the bottom of the screen to proceed with the software update.

 Confirm that the last six digits of the software version match the last six digits (new version) on the software table above, for the applicable model.

In the example of the picture to the right, the last six digits are "201019".

Select 'YES' to start the update.

The system update will begin.

The update will take approximately 15 minutes.

### NOTICE

It is normal for the screen to turn black, display the Hyundai logo and different messages throughout the updating process.

## A CAUTION

Do not press buttons on the center console, remove the USB stick, or turn vehicle OFF while the update is running.

8. Remove the Software Update USB from the USB port after the update is completed.

### TROUBLESHOOTING

# 1. Engine/Ignition turned OFF during the update process:

- a. Do not remove the software update USB.
- b. Turn the Ignition **ON**.
- c. The system will reboot and recognize the USB.

The update process will restart from the beginning.

### 2. USB is removed during the update process:

- a. Error message will be displayed.
- b. Insert the software update USB back in the vehicle USB port.
- c. Select OK.
- d. The system will reboot and start from the beginning.

After the system reboots, select **OK** to restart the update process.
