

To: All Subaru Retailers
Date: July 3, 2017
From: SOA Remanufacturing Operations / SOA Service Engineering
Subject: Expansion of Remanufactured CVT Transmission Program

SOA is pleased to announce additional applications to our line-up of remanufactured 580 series CVT transmission program. Supplies are now available. Effective immediately, retailers are required to use a remanufactured unit when the transmission requires major repair or overhaul, except in the case of a "new" and "in-stock" vehicle in which case retailers should still use a "new" transmission.

Note: Please refer to TSB 03-67-12R for more information about remanufactured CVT transmissions.

CVT Part numbers and applications:

<u>LEGACY / OUTBACK</u>	ID #	P/N
2014 Legacy CVT	TR580KHEAA	31000AJ360R1
2014 Outback CVT	TR580KHEBA	31000AJ380R1
2015 - 17 Legacy CVT	TR580GHABA	31000AJ570R1
2015 - 17 Outback CVT	TR580SHACA	31000AJ610R1

<u>IMPREZA</u>	ID #	P/N
2014 Sedan & 5-door	TR580GD7AA	31000AJ460R1
2015 - 16 Sedan & 5-door	TR580GD8AA	31000AJ730R1

<u>CROSSTREK</u>	ID #	P/N
2014	TR580GD7AA	31000AJ460R1
2015 - 17	TR580GD8AB	31000AJ740R1

Cores:

The corresponding core part numbers are: (All cores carry a \$500.00 value)

Part Number
31000AJ360C1
31000AJ380C1
31000AJ570C1
31000AJ610C1
31000AJ460C1
31000AJ730C1
31000AJ740C1

Packaging:

The existing 580 CVT returnable container will continue to be used for these applications. This container is easily distinguishable by the green stripe on the top and insert sections of the container. Retailers should make sure they are using the correct returnable packaging for the correct style of transmission (top, bottom, insert).

Warranty and Claim Information:

Warranty flat rate repair times with the operation code, description and failure code for these transmissions are available using Subaru Labor Time Guide found on Subarunet.
