

# Service Bulletin

Bulletin No.: 20-NA-064

Date: February, 2021

## TECHNICAL

**Subject: Wind and/or White/Static Type Noise Heard Near Transmission Shifter**

Brand:	Model:	Model Year:		Breakpoint:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Equinox	2019	2020	-	-	-	Equipped with 6 SPD Automatic Transmission (RPOs MNH, MNK)
Holden							

<b>Involved Region or Country</b>	United States, Canada, Mexico, Middle East, Israel, Palestine, Argentina (Mercosur), Brazil (Mercosur), Chile (West), Colombia (West), Ecuador (West), Paraguay (West), Peru (West), Uruguay (West), GM Korea Company, Thailand (ASEAN), Australia/New Zealand, Egypt, Other Africa
<b>Condition</b>	Some customers may comment on a wind and/or white/static type noise heard near the transmission shifter.
<b>Cause</b>	This condition may be caused by the transmission harmonics traveling through the transmission range selector cable, causing noise.
<b>Correction</b>	Replace the transmission range selector cable. Refer to <i>Range Selector Lever Cable Replacement</i> in SI.

Keywords: Whistle, Whistling, Hiss, Buzz, Shifter, Wind, Static and Tizzle

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
