2001 STERLING Feb 17, 2021 2:47 PM

VIN 2FZJAZAS81AH30465 Trying to help a coworker out. Customer has a bad spring hanger on R/H front steer axle

at back of spring. The number we were given is F8HZ-5340-AA. So far the spring hanger is NLA. Alot of resources have

been exhausted, even aftermarket. Any suggestions comments are welcome. Spring pins have egg shaped the holes

Thank You
Scooby

UPDATE Found part online through a truck parts outfit out of michigan. Part number superceded 5 different times, but part was discontinued through factory. If anybody else is looking, the part number is F8HZ-5340-AD. Check out Van Horn Truck Parts online. They seem to be a good outfit for discontinued parts.

Are you talking about the steering axle on a Sterling. My coworker found one as mentioned. Thanks for the reply.

Re: 2001 STERLING Feb 18, 2021 1:08 PM

I've found the same info as Jay Pandos.

Steer axle hanger at rear of spring F8HZ 5340 AD --> HDR 57336 026 stock in the PDC's

"The number we were given is F8HZ-5340-AA" is RH @ front of the spring as listed in PartsPro
