SUBJECT: TID B Main Valve Body Part Number Supersession

MODELS AFFECTED: 3000 Series™, 4000 Series™, B 300, B 400, B 500, T 200, T 300, T 400, and T 500 Models

INTRODUCTION:

In the first quarter of 2021, 3000 Series™ and 4000 Series™ based main valve body part numbers will change per Table 1. Former and current part numbers are both forward and backward compatible.

SERVICE PROCEDURES:

All related service procedures remain unchanged.

SERVICE PARTS:

Former part numbers will be completely cancelled. When inventory of former part numbers is exhausted, service part orders for former part numbers will automatically be filled with the corresponding current part numbers.

PARTS CATALOG:

The Allison Transmission parts catalogs affected will show the related part number supersessions via the History button after service part inventory is exhausted.

AWAARE WARRANTY CLAIMS:

When filing AWAARE warranty claims where the main valve body is the Primary Failed Part (PFP), please show the part number replaced as the PFP in the AWAARE claim. Do not show the installed part number as the PFP.

Table 1. Main Valve Body Part Numbers

Part Name	Usage	Former P/N	Current P/N
Body, Main Control Valve	6-Speed Models	29557154	29563951
Body, Main Control Valve	7-Speed Models	29557155	29563952

Please Note: Allison Transmission Service Information Letters are intended for use by professional, trained technicians, not for the "do-it-yourselfer." They are written to inform those technicians of conditions that may occur on some transmission models (or serial numbers ranges) or to provide information that could assist in the proper servicing of a specific Allison transmission. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, do not assume that the Service Information Letter applies to your transmission, or that your transmission has the condition described. Product evolution and information updates are inevitable. Please see your authorized Allison Transmission service dealer or distributor to understand if your particular transmission may benefit from the information contained within the Service Information Letter.
