**Western Star Parts  
Technical Bulletin**

**Description of Revisions:** *This bulletin replaces the version dated February 12, 2021. Information about parts notes in the Paragon system have been added and the trimming instructions are revised.*

## General Information

This parts bulletin pertains specifically to floor mat parts in the Paragon system which contain the note: "Parts Technical Bulletin 60-100".

Universal floor mat designs go with multiple cab configurations and may require trimming. Trim lines displaying fitment options are scored into the pad side of the mat; for best results, use an existing floor mat as a guide. The new mat should not interfere with safety-critical equipment, such as foot pedals.
