

SSM 49693: 2017-2019 F-Super Duty - Adaptive Steering - Steering Wheel Replacement

For 2017-2019 F-Super Duty vehicles equipped with adaptive steering and require steering wheel replacement, corrections for SASM and SECM module programming errors have been included in IDS level 121.03. Using IDS software level 121.03, start a NEW session and run the Programmable Module Installation (PMI) procedure. Follow the remaining procedures in Workshop Manual (WSM), Section 211-04 to complete the steering wheel installation.

Vehicles:

2017-2019 F-Super Duty (P558) NA (FE)
