Product Change Notice - Solera® Slide Topper torsion rod end caps

Dear Valued Customer:

Please be advised, LCI intends to make a change to the torsion rod end caps on Solera Slide Toppers from cast metal to molded plastic.

The PNs affected are 2724561 White Torsion Arm End Cap and 2724562 Black Torsion Arm End Cap. The change will increase ease of installation and replacement for the decorative-only end caps. The new end caps are as durable as the current, and as they are a solid color as opposed to coated metal, they are less likely to show any scratching.

There is no change to fit, form function or installation with the new end caps. The change will take place around Nov. 1.

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Scott McKinnon
Product Manager
