Product Change Notice - Solera® Power Awning wire covers

Dear Valued Customer:

Please be advised Lippert intends to eliminate the 20" and 26" Solera Power Awning arm wire cover and switch to a standard 23" wire cover.

The 26" cover (PN 693396) covers the bolts in the arm once installed. The 20" (PN 693392) and now standard 23" seat in below the bolts, which helps the wire cover snap in place more easily. The 23" wire cover will be standard for both 63" and 69" Solera Power Awning arms.

There is no change in installation or operation of the awning arm with the 23" cover. There is no price change. There is no part number change for the awning arm. For replacement wire covers, customers should order the 23" part numbers:

2021016172 - WIRE COVER - AWNING - 23 IN BLACK WIDE

2021016173 - WIRE COVER - AWNING - 23 IN WHITE WIDE

The change is expected to begin mid to late March.

Current - 26"
above bolts

New - 23"
below bolts

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Scott McKinnon
