SCR Hydrolysis Chamber

Vehicle Information

VIN: 1FVACXD24KHKF2807

Model: M2 106 CONVENTIONAL CHASSIS

Model Year: 2019

Mileage: 151637 miles

Make: FTL

Are you currently seeing this same issue on other DTNA vehicles at your location?: no

Base Model: M2106

Vehicle Systems Involved

ENGINE AND ENGINE
COOLING

Has anyone replace the DPF filter on a DD 8 under step ATD. I'm trying to find the the gaskets that mounts the SCR hydrolysis chamber to the DPF end cap and SCR chamber. Would anyone know what the part number is for the gaskets?

If the part number is not listed that you need call the CSC via DTNA Connect and select the parts support option. This is the best way to get the issue resolved along with getting the correct information loaded into the parts system.

I found out that the gasket comes with the clamp. So when you replace the DPF you will 2 new clamps to reinstall the chamber.
