| Trike     | 66010-97D |
| V-Rod     | 65989-97D |

**Update 192-210335D**

This update was created to improve the accuracy of warranty claims on batteries. This update also allows for the technician to complete the testing procedure and produce a printout with warranty code if a battery becomes too hot, emits odors during load testing or is suddenly removed from the charger.

*NOTE*

*With this update, charge times will increase due to a more aggressive charge routine.*

**Required Dealer Action***NOTE*

- Complete software update to the GRX-3110 by **April 15, 2021**.
- It takes about 45–90 min to complete the update.
- Contact Midtronics Customer Service with any issues related to this process at 630-323-2800 in North America. Outside the U.S., call 00-1-630-323-2800.
- The software update requires the Universal Serial Bus (USB) cable provided with the GRX 3110. This USB cable is a "Type A Male to Type A Male" cable.
- See warranty manual for your region on retention length of batteries and the corresponding printout requirements.
