

## Vehicle Level Cannot Be Raised Or Lowered.

---

Topic number	LI32.22-P-072610
Version	1
Function group	32.22 - Air suspension
Date	3/10/21
Validity	Model series 223
Reason for change	

---

### Complaint

AIR BODY (AIRMATIC) display message.

Vehicle level cannot be raised or lowered.

Various fault codes in quick test.

### Cause

The compressed-air lines of the air springs may be kinked.

Consequently, the air flow to the air suspension strut may be restricted or cut off completely.

The area of the kink is located at the left front and left rear of the vehicle.

See pictures.

### Remedy

Repair area of kink in pressure line with connector.
