Software Warning Error

Vehicle Information

VIN: 3AKJHHDR2KSKN9737

Model: NEW CASCADIA 126 INCH
SLEEPERCAB

Model Year: 2019

Make: FTL

Mileage: 151637 miles

Base Model: PT126SLP

Are you currently seeing this same issue on
other DTNA vehicles at your location?: no

Vehicle Systems Involved

ENGINE AND ENGINE
COOLING

After doing the Recall D20M8-A I get the message that is in the photo attached. Is any one else getting this message. I have the most current version of DL8.

we have same problem when we hook on 49X, mcm cpc, we leave it like that since it doesn't make a check engine light comes on...maybe a new version of DDL is coming soon for that?

Same with us and now we undated the DT12 TCU recall for it

We get several ECUs with incompatible software. We have 3 49X's we have updated the TCU and all the same messages.
