

Bridgemaster® and Standard Mixer serial number information decal location change

Date: April 26, 2021

Bulletin Name: MXR-TSIB-034

Model: Bridgemaster and Standard Mixers

Model Year: 2021

Units Affected: Those with in-service dates of April 2021 and later

Purpose:

In this technical service information bulletin, McNeilus Truck and Manufacturing releases information for new decals created for the mixer serial number and Bridgemaster® Axle serial number. These new decals replace stamped serial numbers on the mixer front pedestal. The decals will be printed with the correct serial number for your mixer and if it is a Bridgemaster Mixer, then the serial number for your Bridgemaster Axle will have an additional decal. These new decals are located on the inside of the driver's doorjamb, near the complete vehicle decal.

For questions, contact McNeilus at 888-686-7278.

Will be on both Bridgemaster and Standard Mixers (models 93 and 90 respectively).

Will be on Bridgemaster Mixers (model 93) only.

For reference, the new decal(s) will be placed on the inside of the driver's doorjamb. They may be placed near the existing complete vehicle decal image (shown below for your reference).

Decal location on inside doorjamb

DO NOT PAINT OVER THIS LABEL. REPLACE IF DAMAGED OR LOST.

Model	Year	Serial Number	Model	Year	Serial Number
