2017-2018 PATHFINDER AND 2018 ARMADA; DISPLAY CONTROL UNIT INFORMATION

This bulletin has been amended. See AMENDMENT HISTORY on the last page.
Please discard previous versions of this bulletin.

APPLIED VEHICLES: 2017-2018 Pathfinder (R52)
2018 Armada (Y62)

SERVICE INFORMATION

The applied vehicles listed above are equipped with a new control unit for Bluetooth, display, audio, navigation, and telematics systems.

This new system uses a Display Control Unit (DCU) that incorporates the display and is the main controller for most functions of the audio, navigation, telematics, and Bluetooth systems.

Figure 1

The Audio unit, Navi control unit (if equipped), and Telematics control unit (if equipped) provide information to the DCU.

The display and Bluetooth module are built into the DCU.

Figure 2

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. **NOTE:** If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
