Chassis Advisory Notice – Tire Pressure Monitoring System

Jayco - Body Builder		Spartan – Chassis Builder	
Bulletin Type:	<u>Chassis Advisory Notice</u>	Chassis Bulletin:	<i>Technical Service Bulletin</i>
Jayco CAN #:	21-010	Chassis SA #:	CSB21-360-001 21-08
Publication Date:	05/10/2021	Publication Date:	04/22/2021
Make:	Jayco Entegra	Chassis Model:	K2,K3,K4
Model(s):	Embark Reatta, Reatta XL Aspire Anthem Cornerstone	Chassis Model Yr:	2020,2021,2022
Model Year:	2021	Component/Area:	SpartanLync Tire Pressure Monitoring System

Chassis Incident:	The SpartanLync TPMS modules were supplied with a resistor in circuit board that is not desired for Spartan RV chassis due to potential interference with the motor home channels on the house side. Spartan Service Center Correction: Replace the nonconforming modules with certified no resistor modules and reprogram baselines and unit's tire sensor serial numbers.
Affected Chassis:	Motor home chassis built between 2/2/2020 and 10/22/2020 equipped with TPMS
