

Technical Service Bulletin

48 Electric steering column adjustment is not working, DTC B14BF01 is stored in the BCM 1

48 21 01 2062288/3 May 14, 2021. Supersedes Technical Service Bulletin Group 48 number 21-95 dated March 8, 2021 for reasons listed below.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment
A6, A7, A8, S8, Q5, and SQ5	2018 - 2021	All	Electric steering column
Q7, SQ7	2017 - 2021	All	Electric steering column
S6, RS 6, S7, and RS 7	2018, 2020 - 2021	All	Electric steering column
Q8, Audi e-tron quattro	2019 - 2021	All	Electric steering column
A6 allroad, A8 PHEV, SQ8, RSQ8, and Audi e-tron Sportback	2020 - 2021	All	Electric steering column
A6 Avant, A7 PHEV, Q5 Sportback, and SQ5 Sportback	2021	All	Electric steering column

Condition

REVISION HISTORY		
Revision	Date	Purpose
3	-	Revised <i>Condition</i> (Added Workshop findings statement)
2	03/08/2021	Revised <i>Service</i> (Added Note)
1	02/25/2021	Initial publication

Customer states:

- The electric steering column adjustment is not working in the vertical direction.

Workshop findings:

- The customer statement can be reproduced.

Technical Service Bulletin

- There is no DTC stored.

Or

The following DTC is stored in the electronic central control module (BCM 1), J519 (address word 0009):

- **DTC B14BF01** (Steering column vertical adjustment motor electrical error) with symptom code 66145.

Technical Background

The software needs to be updated and the unit cleared.

Production Solution

Starting from production date 10/06/2020.

Service

SVM Update Instructions

1. Follow all instructions in TSB 2011732: *00 Software Version Management (SVM), operating instructions*.
2. Update the steering column control module, J866 using the SVM action code as listed in the table below, if necessary:

Model	Old Software Part Number	Old Software Version	New Software Part Number (or higher)	New Software Version (or higher)	SVM Code Input
Audi e-tron quattro, Audi e-tron Sportback	80A907705A 80A907705	0200 0100	80A907705A	0210	649S001
A8	80A907705A 80A907705	0200 0100 0080	80A907705A	0210	
A6, A7	80A907705A 80A907705	0200 0100	80A907705A	0210	
Q7, Q8	80A907705A	0200	80A907705A	0210	

Technical Service Bulletin

	80A907705	0100 0080 0070			
Q5	80A907705A 80A907705	0200 0100 0080	80A907705A	0210	

3. The function of the electric steering column adjustment must be restored. Proceed as follows:

- Get into the vehicle and use your knees to push the steering wheel upward (a force of approx. 40 kg or 88 lbs is required), at the same time press the steering column adjustment switch upwards in the vertical adjustment direction (Figure 1).
- This will restore the function of the electric steering column adjustment.

Figure 1. 40 kg force pushing steering wheel upward.

4. The electric steering column adjustment must be cleared with the help of up to 50 adjustment cycles in the vertical direction. To do so, you will need the tool kit T10230 (the toolset weighs approximately 9 kg or 20 lbs).

Note:

If the tool kit T10230 is not available in the workshop, look for a similar weight toolbox.

5. Move the steering wheel as far as possible toward the dashboard and then move the driver's seat as far back as it will go.

Technical Service Bulletin

6. Attach the tool kit to the steering wheel using a small securing strap (Figure 2). Take care not to damage the steering wheel.

We recommend placing a cleaning cloth underneath, as shown in Figure 2.

Figure 2. Weight necessary for steering adjustment.

7. Apply plastic foil to make sure the tool kit cannot scrape against the seat (Figure 3).

Figure 3. Plastic foil protection for the seat.

8. If needed, operate the steering column adjustment and move the steering column all the way up and down again up to 50 times. The weight of the tool kit will create a current in the adjustment motor and this will clear the adjustment unit.

Technical Service Bulletin

Note:

The Test Plan should perform the 50 adjustments automatically. If the Test Plan does not perform the 50 adjustments automatically, then perform it manually as described in this step.

Test Plan location : 0009 Electronic Central Electrics, function >> 09 Remedy Process, electrically adjustable steering column.

Warranty

Claim Type:	<ul style="list-style-type: none">• 110 up to 48 Months/50,000 Miles.• G10 for CPO Covered Vehicles – Verify Owner.• If the vehicle is outside any warranty, this Technical Service Bulletin is informational only.
