INTERIOR INSTRUCTIONS ON ACCESSING RESERVOIR FILL CAP

1. Enter unit and locate the dashboard. At the driver side of the dash, locate the square dash cover shown in fig 1. Using a flat head screwdriver pry on the edge to remove. Keep in safe place.
2. Fig 2 - Remove the black circular cap to access the brake reservoir fill cap. Remove cap and fill fluids in with squeeze bottle or funnel. Procedure is finished once reservoir is full.

EXTERIOR INSTRUCTIONS ON ACCESSING RESERVOIR FILL CAP

1. Open the front compartment to check location access to the master cylinder brake reservoir fill cap shown in fig 1.

2. Fig 2 shows the master cylinder and brake reservoir from the exterior of the unit. Twist fill cap off and use squeeze bottle shown in fig 3 to fill reservoir.
3. Procedure is completed once reservoir is full.

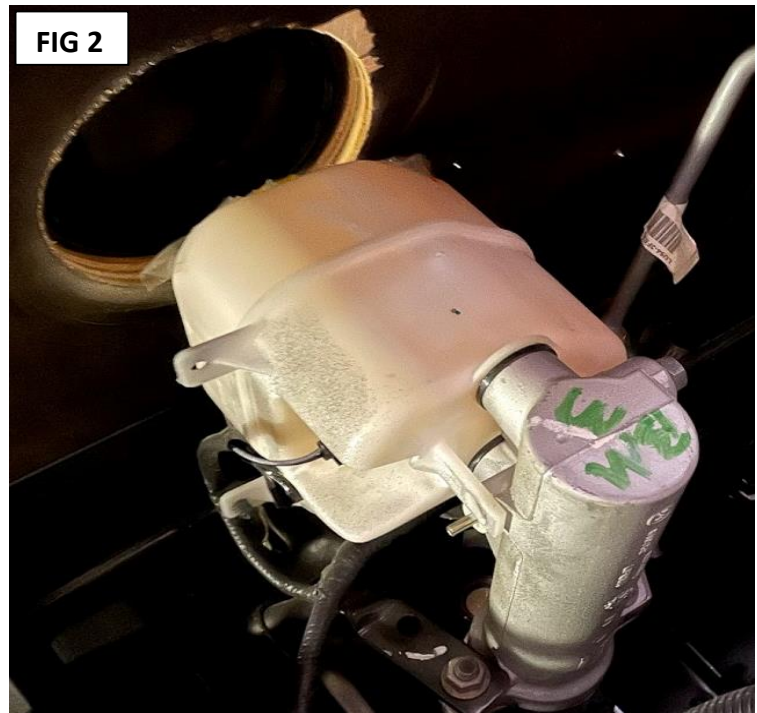

FIG 3

Jayco's sole obligation under our limited warranty is to repair or replace defective materials and/or workmanship deemed our responsibility as determined by Jayco in our sole discretion. Jayco reserves the right to use new and/or remanufactured parts or materials of similar quality to complete any work, and to make parts and/or design changes as appropriate without notice to anyone. Jayco designs and/or materials changes are done without obligation to incorporate such changes in previously manufactured product. Jayco makes every reasonable effort to ensure field remedies will not adversely affect performance and/or safety of the unit. This field remedy is not intended to extend to future performance of this RV, or any of its materials, components or parts beyond the standard warranty period. The RV owner's obligation to notify Jayco, or one of its independent, authorized dealers, of a claimed defect does not modify any obligation placed on the RV owner to contact Jayco directly when attempting to pursue remedies under state or federal law. Jan. 2019.
