[Version 4](#)Language English ▾[Show Properties](#)**Summary:**

Ryker's fuel pump noisy when low fuel level and warm temperatures.

**Type:**

General

**TST Detail:****Problem:**

Reports that the fuel pump can be noisy especially when low fuel levels and warm temperatures for MY19-20-21 Rykers

**Solution:**

New kit available, order P/N 219800530

[Instruction sheet 219800532](#)

Note that parts are temporarily blocked for selective release due to a limited kit quantity. To get the kit, you will need to;

- Place your order in BossWeb
- Create a technical case with the unit information, unit symptoms
- Add your order number in your case comments

Once all information received, the service representative will request for a part release

**Inspection Procedure:**

**Replace the fuel pump only** if there are symptoms like a check engine light leading to a fuel pump replacement or due to low fuel pressure only.

**Warranty:**

Regular warranty applies for 1.2h

Goodwill gesture may be applicable for units out of warranty
