RAC Failure (Roll Advisor and Control system)

Vehicle Information

VIN: 3AKJGLD57GSGU0030

Model: CASCADIA 125 INCH SLEEPER CAB

Model Year: 2016

Mileage: 628716 miles

Make: FTL

Are you currently seeing this same issue on other DTNA vehicles at your location?: no

Base Model: CA125SLP

Vehicle Systems Involved

POWER TRAIN

LATCH

ESC RSC

ELECTRICAL

VEHICLE SPEED CONTROL

RAC Failure - *What kind of system is that?*

What is the HW **Module Number** or **Part Number** if there is such one?

Please advise which manual describes this particular system?

I found on a third party news site "**Roll Advisor and Control system**". Sounds to be this one.

Thanks @Brett_Hall1 !
How can I get a detailed description or troubleshooting guide for this module?
I couldn't find anything at the DTNA site
