| | |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Involved Region or Country | North America |
| Additional Options (RPO) | 5W7 or RVK |
| Condition | May intermittently illuminate the MIL and set P0172 and / or P0175 |
| Cause | Chevrolet Performance / GMC / Cadillac cold air intake system part numbers 84854456, 84854457, 84877903 MUST only be installed on vehicles that were ordered with RPO / LPO (Dealer installed) 5W7 or RVK. Important: These systems require a calibration from Techline Customer Support Center. |

Correction:

The Chevrolet Performance / GMC / Cadillac cold air intake system, are to be dealer installed only on vehicle's that were ordered with RPO / LPO (Dealer installed) 5W7 or RVK. **These systems are not to be installed or sold as an over the counter (ACO) accessory as the calibrations are not available for ACO applications. If the vehicle was not ordered / produced with RPO / LPO (Dealer installed) 5W7 or RVK, Techline Customer Support Center will not be able to provide the calibration and these parts should not have been installed.**

* LPO – Limited Production Option, Ordered with the vehicle at the time of purchase, not an over the counter sale.

* ACO – Accessory Catalog Offering, Over the counter sale.
