<p>Apple CarPlay™ freezes when answering or making phone calls. The device recovers when disconnecting and reconnecting the USB cable.</p>	<p>When making or answering a call, it operates normally, but the screen will freeze at times. The call drops, the screen shows the phone call and the counting has stopped.</p> <p>This may be caused by the customer's device. No vehicle repairs are needed.</p> <p><b>Tech Tip</b> Confirm the iPhone has the latest iOS version, then follow these steps checking CarPlay after each step.</p> <ol style="list-style-type: none"> <li>1. Check vehicle connection: <ul style="list-style-type: none"> <li>• Wired connection: Confirm high-quality, certified smart phone cable</li> <li>• Wireless connection: Make sure that Wi-Fi and Bluetooth are enabled under Settings -&gt; Wi-Fi and Settings -&gt; Bluetooth</li> </ul> </li> <li>2. If Carplay doesn't activate automatically, look for the CarPlay logo on the vehicle infotainment display.</li> <li>3. Restart the iPhone and the vehicle.</li> <li>4. Make sure Siri is ON.</li> <li>5. If your iPhone isn't detected by CarPlay, make sure that CarPlay isn't restricted. Go to Settings -&gt; Screen Time -&gt; Content &amp; Privacy Restrictions, then tap Allowed Apps and make sure that Carplay is enabled.</li> <li>6. Go to Settings -&gt; General -&gt; Carplay, then tap on Mazda -&gt; tap Forget This Car. Setup CarPlay again.</li> <li>7. Confirm infotainment CMU has the <a href="#">latest software version</a>.</li> </ol> <p>If there is still an issue connecting to CarPlay, refer the customer to <a href="#">Apple Support</a>.</p>
<p><b>Apple CarPlay™: The Waze app or the Google Maps app is not displayed in the menu.</b></p>	<div data-bbox="963 1234 1166 1346" style="text-align: center;">  </div> <p><b>Waze Requirement:</b> iPhone iOS 12.0 or higher and Waze version 4.43.4 or higher.</p> <p><b>Google Maps Requirement:</b> iPhone iOS 12.0 or higher.</p>
<p>Cannot update CMU software after smart phone Cable Set Kit (P/N C922-V6-605) installation.</p>	<p>This may be caused by smart phone Cable Set Kit (P/N C922-V6-605) installation error. The hardware was installed before CMU software update by smart phone flash drive.</p> <p><b>Failure: In some cases, the CMU will not recognize the new HUB unit, so CMU software update by smart phone flash drive is not possible.</b></p>

**Recovery: Proceed to Repair Procedure.**

MAZDA CONNECT Navigation system is inoperative after smart phone Cable Set Kit (P/N C922-V6-605) installation.

Confirm that the Navigation SD Card was transferred from the old smart phone HUB unit to the new smart phone HUB unit.

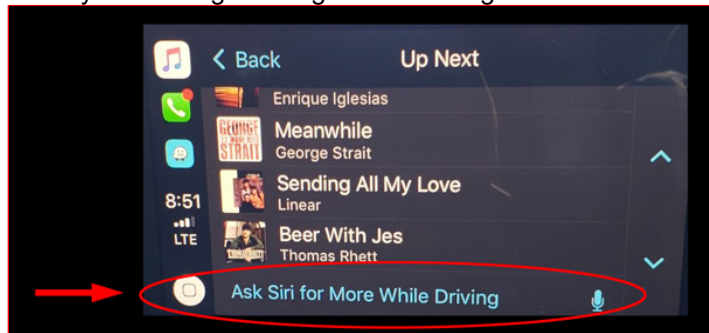

**Apple CarPlay™  
Android Auto™**

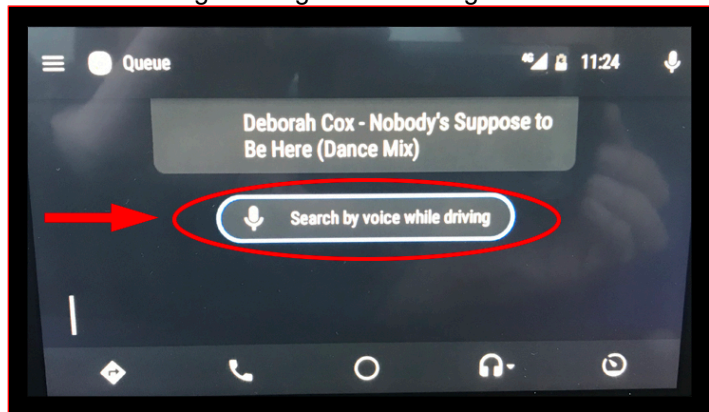

- Cannot scroll song list when driving.
- Cannot find songs when using Apple CarPlay™/Android Auto™

When driving, Apple CarPlay™/Android Auto™ limits some functions such as scrolling. Apple/Google expects drivers to keep their eyes on the road and use Siri/Google Assistant instead of scrolling.

Apple CarPlay™ scrolling message while driving

Android Auto™ scrolling message while driving

This is an Apple CarPlay™/Android Auto™ function. Vehicle infotainment system is functioning correctly.

**CONSUMER NOTICE:** The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. **Apple CarPlay™:** The Waze app or the Google Maps app does not open when using the steering wheel Voice Command button to set a navigation destination.

When using the steering wheel Voice Command button, the navigation system defaults to the Apple Maps app.

**Waze app:** Voice command is possible when selecting the Waze voice icon.

**Google Maps app:** Voice command is possible when selecting the Google Maps voice icon.

**Android Auto™:** The wrong navigation app opens when using the steering wheel Voice Command button.

When using the steering wheel Voice Command button to set a navigation destination, Android Auto™ defaults to the last navigation app that was used. Select the "Maps and Navigation" icon to set your default navigation app.

**CONSUMER NOTICE:** The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." No part of this bulletin may be reproduced in any form or by any means, electronic or mechanical--including photocopying and recording and the use of any kind of information storage and retrieval system ---without permission in writing.

**Apple CarPlay™: Double voice navigation is heard through the vehicle speakers.**

This may be caused by Apple iPhone IOS 12.0 update. The customer sets a navigation destination on Google Maps, then sets a navigation destination on MAZDA CONNECT, double voice navigation is heard through the vehicle speakers.

**Example:**

Apple iPhone software IOS 12.0 update	
Google Maps destination set --> MAZDA CONNECT destination set	NG (double voice)
MAZDA CONNECT destination set --> Google Maps destination set	Good

**Repair:** This is an Apple IOS 12.0 issue. No vehicle repair is necessary.

**REPAIR PROCEDURE**

(Cannot install CMU software after smart phone Cable Set Kit (P/N C922-V6-605) installation)

1. Disconnect the new smart phone HUB unit and the new smart phone cables from the CMU.
