

# Ferrari North America Technical Information

Date: June 2021  
Bulletin #: 2776  
Campaign #:  
Supersedes:  
Section: 10

**Model:** SF90 Stradale, SF90 Spider, Roma

**Subject:** Procedure on how to return defective car keys

Please note that if there is an anomaly found with car keys during PDI checks, they must be returned to the factory via immediate parts return. The car keys must be returned in the same condition in which they were delivered; (i.e., with the black plastic cover in place - **Fig.1**).

This helps ensure that the keys are protected during shipping and arrive at their destination undamaged.

Thank you for your co-operation.
