Product Change Notice - Longer straps for manual awnings

Dear Valued Customer:

Please be advised, Lippert intends to increase the length of the pull strap for the manual awning from 86" to 90.5". The change is being made to decrease instances of rub marks on the fabric and in response to customer requests for a longer strap.

There is no change in installation or operation with the longer pull strap. There is no price change. The part number will change from 292794 (86") to 389124 (90.5"). The top level part number for the awning will not change.

The change began on a running basis, starting May 19.

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Scott McKinnon
Product Manager
