Update 7/29/21

Please note that retail/warranty pricing for the WMF4 sun sensors is available in PPL/Polaris as follows:

Sun Sensor Part #	Retail/Warranty Pricing in PPL/Polaris
V04015008C	\$99.55
V04015008A 1E0	\$118.16

This pricing can be used until auto-loading of pricing for these parts is available in the August parts tape.

Overview

Due to a worldwide semiconductor bottleneck at individual suppliers, the affected vehicles were built without a sun sensor.

Therefore the automatic air-conditioning function is only available to a limited extent.

For this reason, the sun sensor must be retrofitted on the affected vehicles before vehicle delivery.

Model type	Taycan (Y1A/Y1B) Cayenne (9YA/9YB) Panamera (971)
Model year	2020 to 2021
Number of affected vehicles	TBD*

*Please note that vehicles from current production will be added to this campaign on a weekly basis. The manufacturing period and the number of affected vehicles may still change due to volatile availability of the sun sensors.

Test instructions and remedial measures

Work instructions are now available and work can be carried out on the affected vehicles once parts are available (see PCSS, Aftersales Document Database or attachment in this post).
