

# WMF8 Workshop Campaign – Supply Remote Control

Version 2

## WMF8 Workshop Campaign - Supply Remote Control

---

### Important Information:

- Please note that this PPN information serves as preliminary information.
- At present, no statement can be made about the availability of parts. Together with our suppliers, we are working at high priority to procure the required capacities of components. As soon as these are available and thus a supply of the parts is possible, we will inform you immediately. In the meantime, please refrain from requests regarding the availability of parts.
- For vehicles with these open workshop campaigns, the campaign must be coded in the PCSS in the operation management with reason: "Parts not available".
- The invoicing of the completed campaign is only possible with the availability of the remedy.
- The Technical Information and the corresponding customer letter will be published at a later date.

- Where applicable, an associated customer pre-delivery disclosure regarding deviating product build should be provided.

---

## Overview

Due to worldwide semiconductor bottleneck at individual suppliers, the affected vehicles were built without a second hand-held transmitter.

In order not to delay the delivery of the affected vehicles, the vehicles were delivered from the factory without a second hand-held transmitter.

For this reason, the second hand-held transmitter must be provided to the affected customers once available.

Once parts become available, please arrange for this measure to be carried out immediately on the affected vehicles.

<b>Model type</b>	Taycan (Y1A/Y1B) Cayenne (9YA/9YB) Panamera (971) 911 (992)
<b>Model year</b>	2021-2022
<b>Number of affected vehicles</b>	TBD*

\*Please note that vehicles from current production are added to this campaign on a weekly basis. The manufacturing period and the number of affected vehicles may change due to volatile availability of the hand-held transmitter.
