Overview

Due to worldwide semiconductor bottlenecks at individual suppliers, the affected vehicles were built without a front camera.

Camera-based assistance systems are therefore not available on these vehicles.

For this reason, the front camera must be retrofit on the affected vehicles before vehicle delivery.

Model type	Panamera (971)
Model year	2021
Number of affected vehicles	TBD*

*Please note that vehicles from current production will be added to this campaign on a weekly basis. The manufacturing period and the number of affected vehicles may still change due to volatile availability of the front camera.

Vehicle usage

The vehicles may only be driven for loading and unloading purposes in the transport chain.

Further use is not permitted. Test drives are to be omitted.

Please ensure all relevant dealer staff are informed of this notice.

The campaign is assigned to the affected vehicles in PCSS and PVMS. Please note that vehicles from current production will be added to this campaign on a weekly basis. The manufacturing period and the number of affected vehicles may change due to volatile availability of the front camera.
