

## Storage Console Shortage

Communication Type: Product News

Date: 7/28/2021

Freightliner and Western Star orders with the following option may experience a temporary delay in availability of the storage console mounted on the interior backwall of Daycabs. Orders building soon will be released from the plant without this part. The plants will ship this part to the location ideal for the customer and may contact the dealer for confirmation. Installation only requires two screws (provided in kit) in the top section of the console.

**Data code affected:** 696-012 CENTER STORAGE CONSOLE MOUNTED ON BACKWALL

**Models affected:** Cascadia, M2 106, M2 112, 108SD, 114SD & 49X

Please do not submit a Dealer Product Report (DPR) upon receipt of the truck since it is a known shortage.
