COMBINATION METERS CANNOT BE SWAPPED

APPLIED VEHICLES: 2022 Pathfinder (R53)
2021 Rogue (T33)
2021 Sentra (B18)

SERVICE INFORMATION

Do not swap combination meter modules between vehicles for any reason in the APPLIED VEHICLES.

Due to a new electrical architecture, the vehicle mileage is now stored in multiple control modules.

When a mileage difference is detected between modules, the module with the lower value will be immediately overwritten, replacing it with the higher mileage.

If a new combination meter module is installed, it will automatically be overwritten to the correct vehicle mileage.

AMENDMENT HISTORY

| PUBLISHED DATE | REFERENCE | DESCRIPTION |
|----------------|-----------|-----------------------------|
| July 19, 2021 | NTB21-063 | Original bulletin published |

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. **NOTE:** If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
