Involved Region or Country	North America
Condition	<p>Important: If the customer did not bring their vehicle in for this concern, DO NOT proceed with this EI.</p> <p>Some customers may comment on one or more of the following condition:</p> <ul style="list-style-type: none"> • Stalls • Crank with no start • Check Engine Lamp illuminated on the Driver Information Center (DIC) <p>Technicians may find DTC P129F set.</p>

Cause	GM Engineering is attempting to determine the root cause of the above condition. Engineering has a need to gather information on vehicles PRIOR to repair that may exhibit this condition. As a result, this information will be used to "root cause" the customer's concern and develop/validate a field fix.
--------------	--

Correction

If you encounter a vehicle with the above concern, perform the following steps and contact the engineers listed below with your findings.

1. Will the vehicle start?
 - 1.1. If so, how long will it run before shutting off?
2. Will it start on the next key cycle?
3. What other DTCs are set along with DTC P129F?

Contact Information

The Contact Information has been redacted.

Please include the following information if leaving a message:

- Technician name
- Dealer name and phone number
- Complete VIN and repair order (R.O) number

On the repair order, document the date and time the call was placed (even if the engineer was not reached).

If engineering is unable to return the call within one hour, proceed with diagnosis and repair based on information found in SI.

Warranty Information

If engineer was contacted or required information was provided, use:
