

# Service Bulletin

Bulletin No.: 21-NA-135

Date: June, 2021

## INFORMATION

**Subject: Information on Obtaining Techline Calibrations for Law Enforcement and Government Vehicles to Disable or Enable Content**

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Buick	GM Passenger Cars and Light Duty Trucks	2019	2021	—	—	—	—
Cadillac							
Chevrolet							
GMC							

<b>Involved Region or Country</b>	United States and Canada
<b>Condition</b>	The purpose of this bulletin is to inform dealership personnel about Law Enforcement and Government vehicles that request to disable or enable content.
<b>Cause</b>	In some cases, it is not possible to disable/enable a feature. Contact the Techline Customer Support Center (TCSC) to see if disabling/enabling the desired feature is possible for the specific vehicle. The agency/requestor should be reminded that any disabled features should be made fully operational PRIOR to sale of the vehicle.
<b>Correction</b>	Follow this process to obtain the calibration to make the above vehicle modifications. In General Motors continuous effort to provide customer support, the following process is in effect for those select governmental agencies that require and qualify for enabling/disabling certain features. Techline will provide the appropriate software change and instruct the technician how to complete the reconfiguration. <b>Note:</b> This is a customer pay repair.

### Service Procedure

**Important: In Canada, disabling DRL is prohibited by Transport Canada.**

- ONLY** the following governmental agencies qualify for this disable/enable calibration request:
  - City / State / Provincial Government
  - Police / Sheriff Departments
  - FBI
  - CIA
  - DEA
  - RCMP
  - Emergency Vehicles – if government owned
- All requests are to be made through the Techline Customer Support Center (TCSC) at 1-800-828-6860 English or 1-800-503-3222 French.
- The dealership will be required to obtain a letter on official agency letterhead requesting the disable/enable. The letter should include the following:
  - Acknowledgement that the agency owns the vehicle
  - The reason for the disable/enable
  - Which features are to be disabled/enabled
  - Specific VIN(s) of the vehicle(s) that features will be disabled/enabled
  - The following statement: "The [insert feature(s) which has/have been requested for disable/enable] system will be made fully operational prior to sale of the vehicle(s) listed above."

4. The letter must be kept in the service history file at the dealership, and a copy sent to TCSC before the disable/enable procedures/calibrations will be released. In most cases, the vehicle(s) will require a software change, using a VCI number provided by the TCSC.

This is a list of calibrations that are available:
