TOL NOTICE (US&CA) – June 3, 2021

TOL Ref. # 18738-SVC

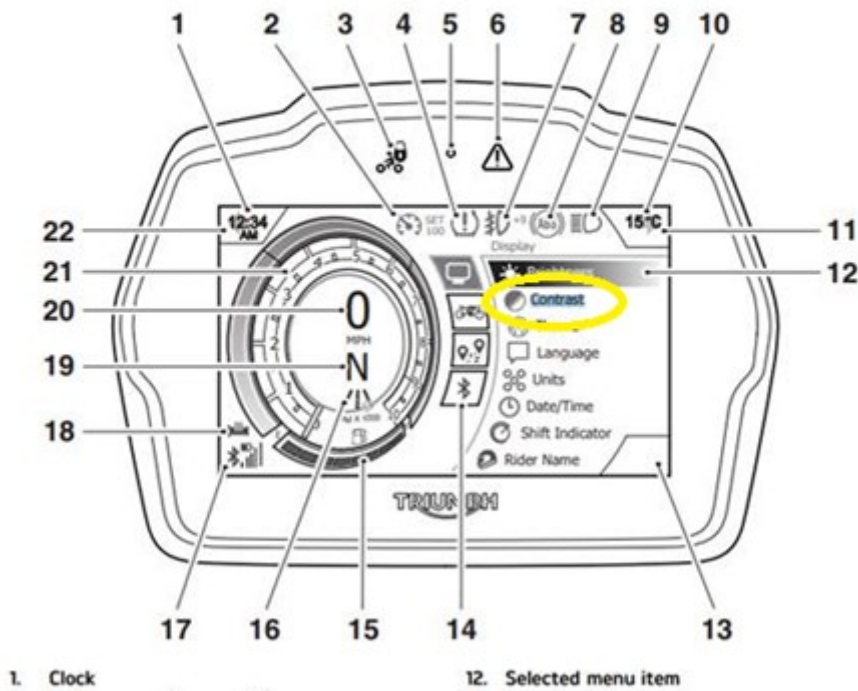

CONTRAST SETTING IN SPEED TRIPLE 1200 RS OWNERS HANDBOOK

The Owner's Handbook for the Speed Triple 1200 RS shows an option to adjust the contrast of the instruments from within the instrument menu.

General Information

Instrument Panel Layout

The motorcycle is fitted with a full colour Thin Film Transistor (TFT) instrument display with a 5 inch (12.7 cm) screen.

This functionality is intentionally not present in the instruments and this is a discrepancy in the handbook. The Owner's Handbook is being corrected to remove this image as this reset cannot be performed in this way. Please relay this information to customers on an as needed basis who may inquire about this function.

Thank you and if you have any additional questions, please contact Triumph Customer Support at (888) 284-6288.
