EDITOR'S NOTE: This article revises the one posted in June 2021.

If you have a customer stating their Apple iPhone® 12 (all models: iPhone 12, iPhone 12 mini, iPhone 12 Pro, and iPhone 12 Pro Max) does not charge when using the wireless charger, please let them know that we are aware of these concerns and are currently looking into it. Replacing the wireless charger or using another iPhone 12 will not address the customer's concern. Please inform your customer to use a USB charging cord until a repair is available.
