12V Power Supply for PT3G Oscilloscope 000 721 990 00 510

Technical Support

SPTL2114

USA Only

Porsche Special Tools and Equipment has recognized, that it has become increasingly harder to diagnose Porsche Vehicles with the PT3G Oscilloscope. The reason for this is, that the technicians scope must remain connected to an AC outlet at all times. Which means that the technician cannot drive the car with the scope attached and powered to gain real world information about the issues with the vehicle. Porsche Special Tools & Equipment will release tool # 000 721 990 00 510 as an auto-ship tool, starting CW 35/21, August 31, 2021. If you have any questions about this 12V Power Supply, please feel free to reach out directly to Porsche Special Tools & Equipment at askthetoolguy@porsche.us
