Supplier

Mahle

Description

Recall 21KWE: HVAC Control Head Not Functional

Date

8/17/2021

What's New

Safety Recall – Interim Notification - Certain Mahle HVAC control heads may have a soldering defect which may result in inoperative HVAC controls. Inoperative HVAC defrost may reduce driver visibility, increasing the risk of an accident. This bulletin will be updated when parts become available.

Introduction

Kenworth Truck Company has determined that a defect, which relates to motor vehicle safety, exists in certain model T680, T880, and W990 chassis manufactured between March 23, 2021, and April 7, 2021.

Situation

1,597 (1,441 U.S. and 156 Canada) T680, T880, and W990 chassis built from 03/23/2021 through 04/7/2021 built with suspect HVAC control heads.

Resolution

Safety Recall

This bulletin will be revised when parts become available.

Federal Law

It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.
