REPAIR PROCEDURE

Preparation

1. Prepare four (4) individual USB memory sticks and label them as shown in the table.
2. Delete all files from the USB memory sticks.
3. Download the following files to each individual USB memory stick by model.

| Model	File Name and Link	Software Version	USB Memory Stick
Mazda3	**Coming Soon**	10004	Mazda 3 TCU10004
CX-30	**TCU_7000T11-0601_8004.kwi**	10004	CX-30 TCU10004
CX-5	**TCU_7000T11-0301_8014.kwi**	10020	CX-5 TCU10020
CX-9	**TCU_7000T11-0201_8014.kwi**	10020	CX-9 TCU10020

NOTE:

- Each USB memory stick should only have one (1) file on it. If two or more files exist on the USB memory stick, no file is recognized for the reprogramming.
- Advise the customer to NOT use the remote control features (remote engine start/stop, remote door lock/unlock, turn on /off hazard warning lights) with the MyMazda App during the repair. The malfunction information may be sent for the DTC detected during the repair.
