

## SIB 00 11 20

### TECHCONNECT APP Version 2.0.9 Released

2021-07-08

This Service Information Bulletin (Revision 7) replaces SI B00 11 20 **dated May 2021**.

#### **What's New:**

- Biometric Login – Login to the app using your phone's face or fingerprint id system
- Updated in-app browser for cross linked applications
- Redesign of the More tab
- Improved functionality of the AIR application in the mobile environment
- Home Page Search bug fixed
- Improved authentication across applications

## **MODEL**

ALL

## **SITUATION**

TechConnect version 2.0.9 is now available in the Dealer APP Store (iOS), or Google Play Store (Android).

What's new in this release:

- Biometric Login – Login to the app using your phone's face or fingerprint id system (after initial S-Gate login)
- Updated in-app browser for cross linked applications
- Redesign of the More tab
- Improved functionality of the AIR application in the mobile environment
- Home Page Search bug fixed
- Improved authentication across applications

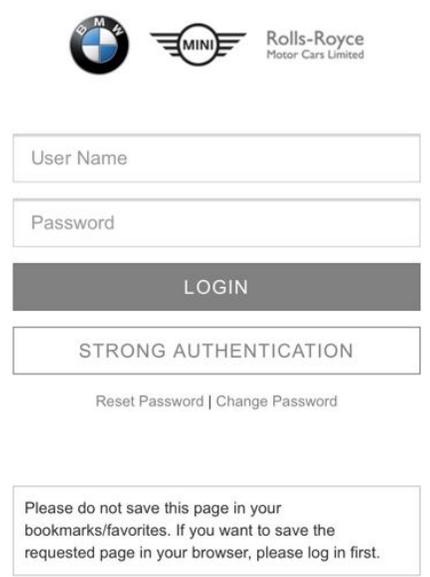

#### **Information about Biometric Login:**

The biometric login function allows you to use fingerprint ID or face recognition to log into the app. Functionality and availability is based on your specific mobile phone.

#### **New Login Screen Layout:**

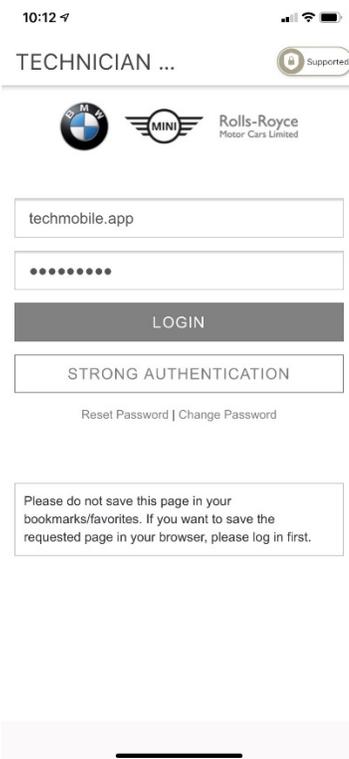

Click this icon to see what login methods are supported on your device.

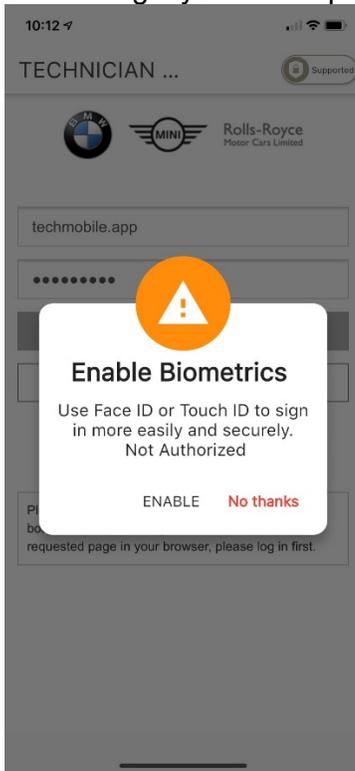

Biometric Login Button  
Used to turn Biometric login on/off

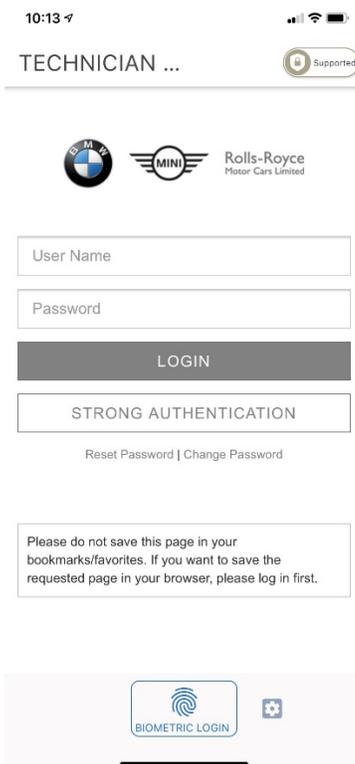

1. After you install the update, you will be asked to type in your S-Gate user ID and password.

2. After login you will be prompted to enable biometric login.

3. From this point forward you can use the biometric login button for future login to the app.

**Note about password changes in S-Gate:**

If you change your S-Gate password you must input the new password into the app. Once you do this it will update your biometric profile.

**Note about cross application linking within the app:**

The app contains links to other systems such as TIS, TSARA, TMSI and AIR. These links were made available as requested by you, our users. While we have developed our in-app browser to provide the best user experience possible it must be noted that some apps, such as TMSI, and AIR are not designed for mobile use so functionality may be limited. This is not a fault or bug with the app.

**Installation / Update of the App****Android Users:**

Download the app directly: <https://play.google.com/store/apps/details?id=com.bmw.technicianconnect>

Or search the Google Play store for BMW Group Technician Connect

- Login using your DealerSpeed (migrated S-Gate) credentials

**iOS Users:**

Refer to the attached document to install / update the app from the BMW Dealer App Store.

**Technical Support**

For App login issues:

## BMW Group TechConnect App

### iOS Technician Connect app install procedure.

Due to restrictions imposed by Apple, the Tech Connect App is only available via the BMW Dealer APP store. The App can not be found in the public Apple store.

1. Go to: <https://appstore.bmwdigital.io>
2. Login with your S-Gate credentials. If you have not already done so, you must migrate your DealerSpeed account to an S-Gate account to proceed.
