Subject: New map for updating engine control unit

Dear Dealer / Service Centre,

Please note that a new engine control unit map for the aforementioned model is now available for downloading with the P.A.D.S. diagnostic tool (which must be updated to the most recent version available).

The aforementioned operation is considered part of the normal scheduled maintenance required for the vehicle, and must be performed at the same time as other scheduled maintenance operations either during the pre-delivery procedure, for new vehicles, or at the first available opportunity when the vehicle is brought to the service centre, in the case of vehicles that have already been sold and are in use.

Model	Version	ECU Internal Code	New Map
