IDLE STOP / START SYSTEM FAULT ERROR MESSAGE

APPLIED VEHICLES: 2022 Pathfinder (R53)
APPLIED DATE: Built before July 28, 2021
APPLIED SYSTEM: Idle Stop System (ISS)

SERVICE INFORMATION

A “Stop / Start System Fault” error message may be displayed on the instrument panel (Figure 1), if the seatbelt remains buckled or unbuckled over 10 consecutive drive cycles.

- Drive cycle: Driven over 2 mph, and then parked for at least 10 minutes

If the Stop / Start System Fault error message is displayed on the meter, in most cases buckling / unbuckling the seat belt with the ignition ON, or in accessory mode, should clear the message.

- If buckling / unbuckling the driver’s seatbelt does not resolve the issue, refer to the Electronic Service Manual (ESM) to diagnose and repair the vehicle, and clear the Idle Stop System (ISS) meter message.

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. **NOTE:** If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
