Product Improvement Notice - Advantage Leveling Controller and System

Dear Valued Customer:

Please be advised Lippert has redesigned the standard leveling controllers as part of an effort to unify controller compatibility, improve customer satisfaction, and to integrate new features. The systems affected are Level Up, Ground Control 4 point, Ground Control 6 point, and Ground Control Travel Trailer.

There is no change in operation or installation with the controller change and the controllers are backward compatible.

New Features:

- Bluetooth Integration
 - Providing BT connectivity via Lippert Connect Smart Phone App
- Software Lockout
 - Preventing leveling system activation. Lockout is activated 10 minutes after last activation of a leveling function. Disabling Lockout is performed by physically interacting with the LCD Interface
- Updated Level Up Controller Enclosure

Current

New

NOTE: There is no physical change to the controllers for Ground Control with the new features.

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Zachary Inbody

Sales Engineer
