PUN2021C

Product Update Notice

September 15, 2021

Units Possibly Affected: Certain MT66-E76 units with 8" capacity cut diameter. (Verify that your unit serial number is affected by reviewing the attached list in this PUN or by accessing your fleet on connect.altec.com/login)

Bracket for Larger Cut Diameter

Altec is committed to providing our customers safe and reliable products from initial delivery throughout the useful life of the unit.

Altec has developed a new bracket for the cutterhead on affected units that increases the cut diameter from 8" to 10" with the grapple and saw functions. This update does not affect the weight capacity of the grapple (refer to the Operator's Manual under Section 3). Call 1-877-GO ALTEC (1-877-462-5832) option 1 to order the update kit, part number 991378341.

This upgrade is not covered under the Altec Warranty Policy and can be performed by Altec, the customer, or the customer's warranty provider.

Call 1-877-GO ALTEC (1-877-462-5832) option 3 to schedule the work to be done by an Altec Mobile Service technician or option 2 to schedule the work to be done at an Altec facility.

Altec Use Only	
Inspection labor	0.0 hr
Repair labor	1.5 hr
Account #	NA
Travel	Not Included
