

We have immediately suspended our BF Goodrich tire options for Saf-T-Liner C2, HDX and EFX as a result of supply chain shortages. No time period has been provided by the supplier to help determine how long these options will remain unavailable. If you have valid quotes waiting to be committed to order that are configured with the suspended options below, please reconfigure those quotes with available tire selections.

We will reach out to you requesting tire selection changes if you have committed quotes in our current backlog that are impacted by this suspension.
