Customer statement / workshop findings

Customer will not be aware of any fault codes.

Workshop may discover spurious fault codes whilst running a Diagnostic Trouble Code (DTC) log as part of other investigations on the vehicle.

Technical background

The operative should refer to the Bentley Hub referencing TPI 2053177/-

The document (loaded onto the Hub) contains all of the current known Spurious DTC's for all vehicle variants.

Should a particular TPI be listed as Archived within the attached document the TPI can no longer be viewed within Elsa pro, in this case please refer to the instructions with the document (loaded onto the Hub) regarding the DTC description and actions (if any) which should be conducted

Production change

Not applicable.

Measure

During routine diagnostic interrogation of vehicle systems use the document (loaded onto the Hub) to determine the course of action to be taken.
