Product Change Notice - Bimini Quick Connect frame and actuator harness connectors

Dear Valued Customer:

Please be advised, Lippert has changed the SureShade Power Bimini Quick Connect frame harness and actuator harness connectors from a spade connector (Fig. 1) to a black SAE plug (Fig. 2).

The change was made to make the system easier to install for OEM customers who ship their frames unattached to the boat. The change only affects OEM customers who do not request Lippert attach the actuators to the frame.

Part numbers for the harnesses are:

Actuator harness: 2020328733 and 2020328732

Frame harness (connects to actuator harness): 2020328775

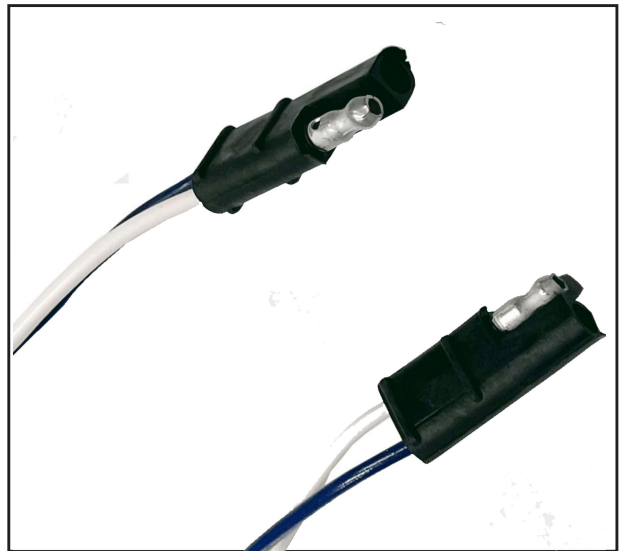

The change is being made on a running basis, starting immediately.

Fig.1

Current - spade connectors

Fig.2

New - SAE black plugs

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Scott McKinnon
