2	08/02/2021	Revised <i>Service</i> (Updated expected release date)

# Technical Service Bulletin

---

1	02/17/2021	Initial publication
---	------------	---------------------

## Customer states:

- Last destinations, favorites, and home/work addresses are sporadically lost.

## Workshop findings:

- The concern might not be reproducible at the dealership due to it happening sporadically.

## Technical Background

A software bug can cause some user data to be lost on boot-up.

## Production Solution

This bulletin will be updated when more information is available. A solution is currently under development.

## Service

1. Explain to the customer that a solution is forthcoming for the 3rd quarter of 2022 and that no repairs are necessary at this point. A workaround procedure will become available by the end of 2021, by which time this PSS will be updated with that procedure.  
Do not replace any components for this condition since this will not resolve the customer's concern.
2. Create a PSS record in the PSS application through the Pending Service Solutions (PSS) link in AccessAudi (under *Related Links >> Service*), or through the Technical Assistance page in Elsa.

## Warranty

This TSB is informational only and not applicable to any Audi Warranty.

## Additional Information

All part and service references provided in this TSB (2062266) are subject to change and/or removal. Always check with your Parts Department and/or ETKA for the latest information and parts bulletins. Please check the Repair Manual for fasteners, bolts, nuts, and screws that require replacement during the repair.
